I. INTRODUCTION

Dong Xuyen Port Joint Stock Company was founded in 2010 in the area of 15.5 hectares along Dinh riverside 412 meters with jetty length of 300 meters. Our aims is to supply base services for all companies that are located in Dong Xuyen Industrial Zone and neighbor areas of Ba Ria - Vung Tau Province. Our main services supply includes:

- Port and base services
- Logistics services
 - Bonded warehouse;
 - Customs;
 - Domestic and oversea transportation service;
 - Provide full package service for site move and roll-on of oversized/overweight and super-heavy equipment/ goods by SPT / SPMT specialized equipment;
 - Crane & forklift rental service, and specialized equipment for lifting service;
 - Ballast/ deballast and mooring services for load-out vehicles;

- Provide full package service for sea fastening work for domestic and international sea transportation including designing, implementation and inspection services;
- Maintenance and repair of ships, vessels and other floating vehicles;
- Fabrication, manufacturing oil and gas equipment;
- Electrical and Instrument installation works.

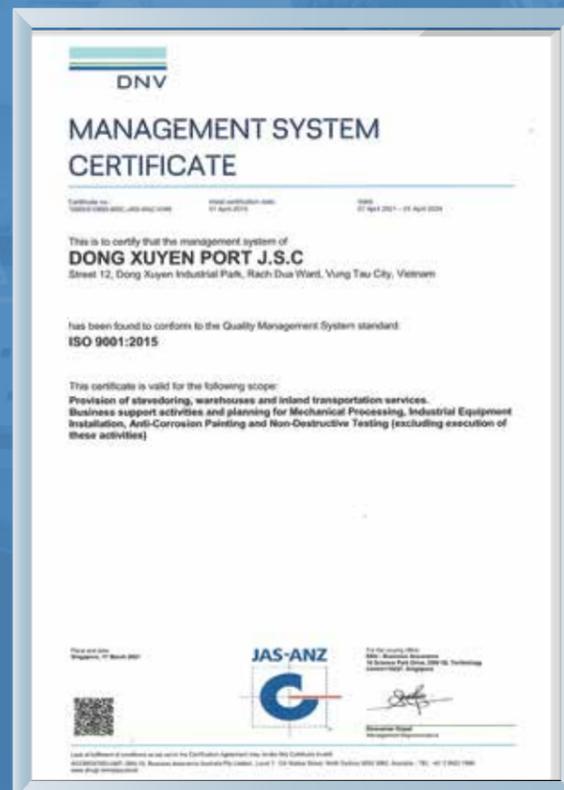

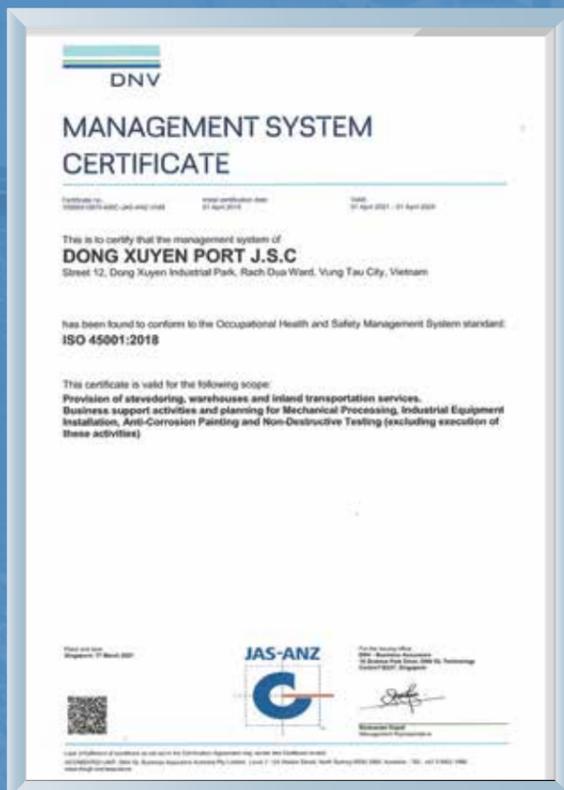

Tend to supply whole package service with more and more professional manner and bring the best profit to customers during co-operation, Dong Xuyen Port gradually improves our infrastructure, jetty, equipment as well as human resources capabilities. This has made Dong Xuyen Port J.S.C become a trusted partner of domestic and oversea customers.

VISION - STRATEGY

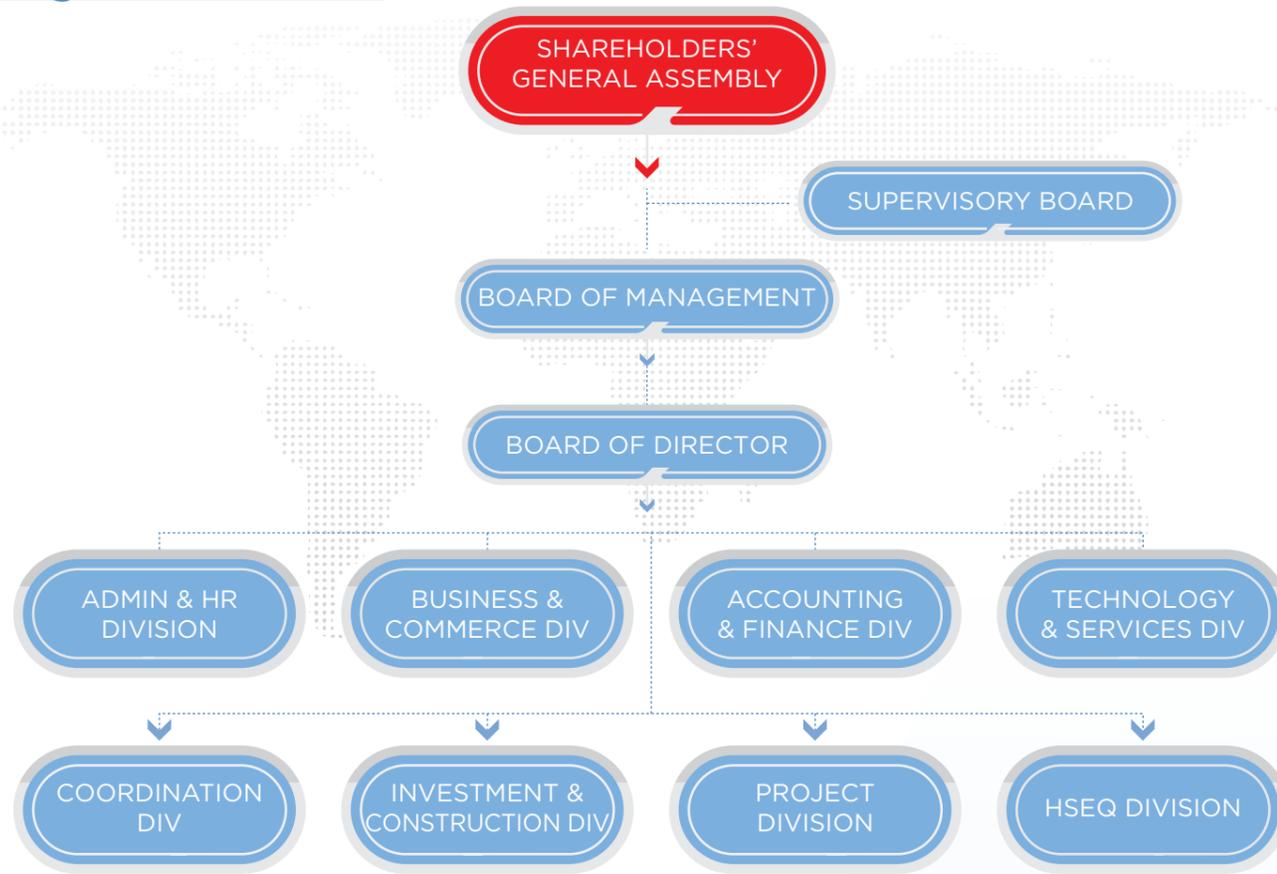

1 Become a trusted and value-added partner for customers in providing services of wharf, warehouse and related auxiliary services in Ba Ria - Vung Tau province and southern areas as well.

2 Diversify trading activities based on its strong points to make comprehensive, favorable, prompt and effective services.

II. PERSONNEL CAPACITY

1. Organisation Chart

2. Human Resources

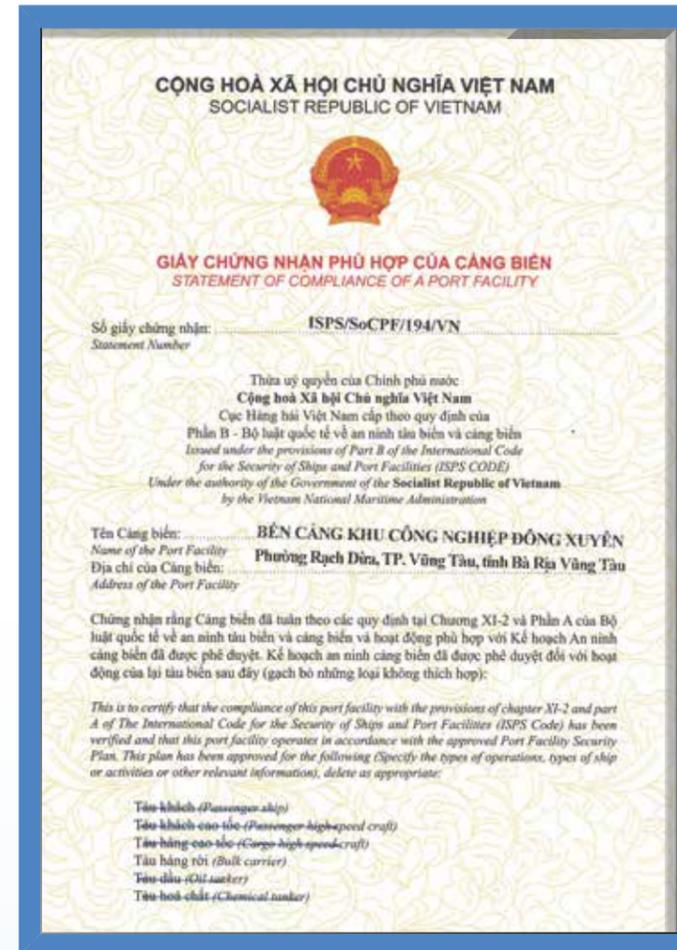

Dong Xuyen Port J.S.C possesses a solid group of experts, engineers and skilled workers with experience, enthusiasm of port development and services:

- Management board : 10 persons
- Experts and Engineers : 50 persons
- Logistics Coordinators : 10 persons
- Mechanic and Fitter : 15 persons
- Rigger : 20 persons
- Other service worker : 30 persons
- Electrician & Instrument worker : 100 Persons

III. PORT CAPACITY

Belonging to seaport group No.5	
Port code	VNDXC / 51BES06
Port coordinate	10o24'14"N 107o06'17"E
Pilot boarding position	10o19'48"N 107o03'177"E
Mooring capacity	Vessel load capacity up to 10.000 DWT
Cargo load/unload capacity	5.000 tons/day
The length of port	300m
The width of port	Adjoining to river side
Jetty loading capacity	20T/m ²
The water depth of quayside <i>Minimum draft - at low tide (Zero) of chart</i>	6.5m
The water depth of quayside <i>Maximum draft - at high tide (4.0 M) of chart</i>	10.5m

IV. INFRASTRUCTURE CAPACITY

1. Dong Xuyen Port facilities:

Dong Xuyen Port has been investing and constructing the following facilities:

- Jetty that can be moored Vessel with load capacity of up to 10,000 DWT
- Open and Closed Warehouse for goods storage
- Fabrication and Painting Workshop
- Fabrication Yard with high loading capacity
- Specialized Yard for Fabrication of Oil & Gas and other industrial overweight equipment
- Office for rent
- 3 Phase Transformer with total capacity up to 4,230kVA
- Water supply system
- Fire Fighting and Lightning System
- CCTV and access control system
